Reference: IH-483-2019 Adjusted

Dear Mr Santillan;

The Laboratory Report of Analysis from the hemp sample in November 2019 from your growing location is for the following hemp variety:

- 1) Carolina Dream

This variety grown under your 2019 hemp permit is in compliance with PA Department of Agriculture's THC guidelines, allowing for the laboratory's measurement of uncertainty.

Therefore, you can proceed as planned with harvesting, processing and marketing your hemp variety.

Cordially,

A handwritten signature in black ink that reads "Sarah E Pickel". The signature is written in a cursive, flowing style.
