Reference: IH-483-2019

Dear Mr Santillan;

The analysis shows that these varieties have a Total THC % below the legal limit, therefore you can proceed as planned with harvesting, processing, and marketing your crop*.

- 1) Boax
- 2) Golden Redwood
- 3) Wild Bourbon

*Please note that the above results do not include any variety randomly selected for testing by the PA Department of Agriculture for "PDA Compliance".

Cordially,

Sarah Pickel
